

**VEHICLE/EQUIPMENT REPAIR TECHNICIAN SUPERVISOR
(VEHICLE/EQUIPMENT SUPERVISOR)
COMPETENCY PROFILE**

Description of Work:

Work in this class involves the supervision of a group of mechanics, mechanics' helpers, dispatchers and vehicle/equipment operators and other semi-skilled/skilled trades personnel. Positions may supervise employees who dispatch, operate vehicles/equipment, perform small engine, automotive, heavy equipment, and/or marine mechanic work,. Supervision ranges from small repair/operations, to managerial responsibility for the replacement, repair, operation, and service of a large vehicle/equipment fleet. Employees in this class are typically responsible for determining the type and extent of operation/repair work to be completed. Scheduling vehicles/equipment for work assignments and/or service/repair, dispatching vehicles/equipment and operating vehicles/equipment. Work also includes establishing general time frame/limits for maintenance, repair work and work assignments. Distributing repair/operational assignments, and determining the extent of any additional repair/operational work to be done. May coordinate equipment/vehicle pool and schedule efficient routes. Employees may instruct other supervisors and technicians in difficult repair/operational assignments and inspect work upon completion to determine that necessary repairs and tasks have been completed and that vehicles and/or equipment are in proper operating condition. Prepare work reports on maintenance and repair/operational work done. Submit requisitions for needed materials, and purchase emergency supplies as needed in order to perform work or make necessary repairs. Maintain or supervise the maintenance of stock records. Employees analyze operating cost records and prepare reports. Work is performed in accordance with established practices and departmental procedures and policies, and evaluated through operational efficiency and effectiveness. Work is also subject to review through occasional inspections of completed jobs and/or repaired vehicles/equipment and various work reports.

ROLE DESCRIPTIONS BY COMPETENCY LEVEL		
CONTRIBUTING	JOURNEY	ADVANCED
<p>Supervises vehicle/equipment repair technicians, mechanics' helpers, dispatchers and vehicle/equipment operators, and other semi-skilled/skilled trades personnel, in functions related to the operation, repair and maintenance of vehicles or equipment. Employees at this level may function in a "working supervisor" capacity. Schedules and reviews work assignments, sets daily objectives for work unit based on established priorities and time frames, determines the priority and extent of repair/operational work to be completed. Work is differentiated from the other supervisory competency levels by the relative size and complexity of shop operations.</p>	<p>Supervises other vehicle/equipment repair supervisors and/or technicians, mechanics' helpers, dispatchers and vehicle/ equipment operators, and other semi-skilled/skilled trades personnel, in functions related to the operation, repair and maintenance of vehicles or equipment. Sets short-range maintenance objectives and prioritizes activities and tasks, and adjusts priorities when appropriate. Coordinates a limited variety of vehicle/ equipment operational, diagnostic, and repair services. Analyzes fiscal/budget reports; makes decisions on procurement of equipment/supplies; responds and meets requests for budget information within time frames; and explains or justifies budget requests. Prepares work reports, submits requisitions for needed materials; and purchase emergency supplies.</p>	<p>Manages the acquisition, replacement, repair and service of vehicle/equipment fleet. Plans, organizes and directs service operations that may be statewide in nature or division/agency based. Sets mid- to long-range maintenance/operational goals and objectives and prioritizes activities and tasks; prepares alternative plans to meet changing conditions and ensure timely task accomplishment; coordinates a wide variety of vehicle/ equipment operational, diagnostic, and repair services. Provides rationale to management for budget expenditures; adjusts budgets as appropriate or directed; understands and applies financial planning strategies to develop budget.</p>

(VEHICLE/EQUIPMENT SUPERVISOR)
COMPETENCY PROFILE**

Competency	Definition
Planning and Organizing Work	Develops plans to accomplish work operations and objectives; arranges and assigns work to use resources efficiently. Advanced planning is more of a strategic nature to develop plans, organizational structures, and systems to fulfill legislative or mission driven organizational goals.
Knowledge – Technical	Demonstrates a designated level of technical skill or knowledge in a specific technical area(s) and keeps up with current developments and trends in areas of expertise. May be acquired through academic, apprenticeship or on-the-job training or a combination of these. NOTE: Where more than one area of technical knowledge is required, more than one Knowledge competency may be listed or specific needs may be documented in competency profile. For example, if a job requires XXXX and ZZZZ knowledge, knowledge competency factors may include Knowledge (XXXX) and Knowledge (ZZZZ).
Financial Administration- Budget	Plans and monitors the use of expenditures to meet organizational objectives and compliance; prepares budget documents and reports.
Communication	Communicates information to individuals or groups; delivers presentations suited to the characteristics and needs of the audience. Clearly and concisely conveys written information orally or in writing to individuals or groups to ensure that they understand the information and the message. Listens and responds appropriately to others.
Client/Customer Service	Develops and maintains strong relationships with clients (those who buy goods and services and for whom formal professional services are rendered) or customers (those who consume goods and services) by listening to the client/customer and understanding and responding to identified needs.
Leading Work Teams	Establishes expectations and clear direction and expectations to meet goals and objectives of on-going work for a group of employees. Motivates and engages employees through effective communication.
Human Resource Management	Recruits, selects, develops, counsels, disciplines, and evaluates performance of employees to retain a diverse workforce; administers and ensures compliance with human resources policies and procedures. Observes and assesses work; provides feedback; may provide technical supervision; develops knowledge, skills, and abilities of employees; plans for and supports employees in career development opportunities.
Safety and Health Management	Establishes a culture of safety for employees and ensures that work processes are free from safety and health hazards, that employees are properly trained, and that programs are in place to ensure safety.
